Follow the steps to create your account

1. **Register**
   - Click on [https://directory.library.state.utah.us/registration/](https://directory.library.state.utah.us/registration/) and fill out the form in Step 1.
   - After you register, enter your name, selected email address, select your local library, and enter your library bar code number. When you click “Send” it will generate your notification email.

2. **Confirm your email**
   - Confirmation email from [email@library.us](mailto:email@library.us) sent to the email account used in Step 1.
   - If you do not see the email in your inbox within several minutes, remember to check your spam folder.

3. **Activate your account**
   - Click on the activation link in your confirmation email.
   - If you have activated your account, you will see the difference in how you access the resource. Please follow the link to activate your account.

4. **Set your password**
   - Create a password for your OpenAccess account and click next.
   - Once you have entered your password twice, you will get a small pop up that says “Account activated. Your OpenAccess account has been activated.”

5. **Access online resources**
   - For best results, access the online resources from the OpenAccess account.

If you have trouble registering for an OpenAccess account or need assistance navigating your Public Library resources, contact the Utah State Library at [library.us](mailto:library.us).
