Thank you to everyone who supported the Library in a year that saw the highest number of visitors ever recorded as 201,935 people came through our doors. This points to a host of successful programs, services, and resources that have been embraced by the community in our state-of-the-art facility and a staff that makes everyone feel welcome. We were recognized with the Quality Library Award by the Utah State Library for rising above and beyond statewide library standards, with special mention for our transformational services. We are grateful to the City Council, City Administration, the Library Board, the Friends of the Library, and our community who believe in our Library's Mission to "Empower Minds, Inspire Imagination, and Connect Community."
